Dynamic NAT

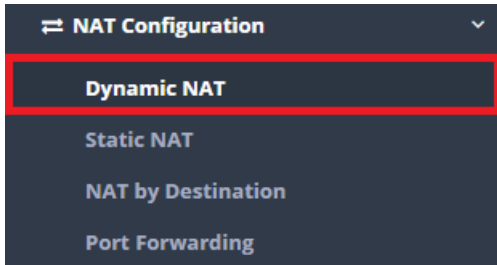

Product: Antikor v2 - Next Generation Firewall

Configuration Examples

Dynamic NAT

This is used to NAT certain segment of the network. It can be used for IPv4 or IPv6 address (s), or for one of the defined network groups.

Firstly, click Dynamic NAT under the NAT Configuration menu.

In Dynamic NAT page, new register can be created or can arranged. For this click “add” button.

Dynamic NAT - New Record ✕

Status Active

Network Addresses

External IP Address
