Hotspot Clients

Product: Antikor v2 - Next Generation Firewall
Guides

Hotspot Clients

- This is the section where Hotspot clients are located.
- Computers desired to be used with quota management (time or data transfer sum) on the network can be defined in this section.
- Time and / or quota-based access to users can be provided.
- To add a new hotspot client, click on the **Add** button and fill the **hotspot clients - new registration** form that will be showed.
- The desired IP address block can be included in the hotspot group provided that it is defined in the **IP Pools** and can be excluded from the definition of one or several client hotspots
 - Included 10.10.10.0/24
 - Excluded 10.10.10.10/32, 10.10.10.25/32
