Session Policies

FIELD	DESCRIPTION
Maximum Session Period	Define maximum period of time during which no logout of Antikor occurs.
Maximum Number of Failed Logins	Define maximum number of consecutive incorrect username or password attempts in Antikor logon screen.
Maximum Disabled-Time	Define re-logon period after which a logon attempt can be made when the maximum number of unsuccessful logon attempts has been reached.

Note: Users logging into the interface with authentication from external sources (LDAP, RADIUS, TACACS, etc.) are not subject to Antikor password policies. Users authenticating with this method are subject to password policies made on authenticated external servers.
